## Laboratory Activity 3 for Math 080: Topics from Chapter 1

Jordan C. Hanson

July 11, 2022

## 1 Introduction

Please watch the video entitled "Two-dimensional histograms" on Moodle, and repeat the calculation shown there, according to the parameters below. Perform your calculation in Excel or Calc. The goal is to fill in the table below, using your results.

## 2 Questions

- 1. Calcualte the relative frequencies of the numbers of classes as done in the video.
- 2. Remove the final overflow column, as done in the video.
- 3. Create a 2D histogram from the relative frequencies that contains 5 rows and 3 columns. This is equivalent to filling in the following table:

(Years/Sizes)	0-19	20-39	40-99
2010-12			
2012-13			
2014-15			
2015-17			
2018-19			

4. Do you identify any trends? If so, what are they? (Base your arguments on the histogram you've constructed from the original data).—
